درباره من

Apple software developer with five years of experience. I make it my goal to create software with the user in mind, creating applications with a useable and intuitive user interface experience. I also understand the importance of creating a highly readable and easily maintainable source code. I am constantly striving to learn new technologies and look to ways to better myself in this rapidly changing industry.

Hamburg Area, Germany

The CHEF.ONE community is based on the interaction between hosts (chefs of any level) and guests (food lovers).

If you are tired of local restaurant food, want to try something new, something authentic, if you want to meet new people who share the same passion for food diversity, CHEF.ONE gives you all of this.

If you love to cook and share, why not make money doing what you love? Why not practice and hone your skills, become known for what you do? Being a chef is all about cooking for others. CHEF.ONE can be a hobby for life or a start of your dream job.

For the initial release, we will operate only in Hamburg, Germany. You can search for events by keywords or browse the map for events near you.
